1 Nature of Operations

The Company is registered u/s 8 of the Companies Act, 2013 for providing specialised care for underprivileged children with developmental disabilities.

The financial statements have been prepared in accordance with generally accepted accounting principles in India (Indian GAAP) under the historical cost convention on accrual basis in compliance with all material aspects of the Accounting Standards (AS) notified by the Companies Accounting Standard Rules, 2006 (as amended) and the provisions of the Companies Act, 2013. The accounting policies have been consistently applied by the Company and are consistent with those used in the previous year.

1.1 Companies Act, 2013 The accounting policies have been consistently applied by the Company and are consistent with those used in the previous year.

2 Summary of Significant Accounting Policies

2.1 Accounting policy

The financial statements have been prepared to comply with the Generally Accepted Accounting Principles in India (Indian GAAP), including the Accounting Standards specified under Section 133 of the Companies Act, 2013, read with Rule 7 of the Companies (Accounts) Rules, 2014 and the relevant provisions of the Companies Act, 2013 ("the 2013 Act"). These financial statements are prepared on an accrual basis under the historical cost convention. The financial statements are prepared in Indian Rupees. The accounting policies adopted in the preparation of the financial statements are consistent with those followed in the previous period.

The Company is a Small and Medium Sized Company as defined in the General Instructions in respect of Accounting Standards specified under Section 133 of the Companies Act, 2013, read with Rule 7 of the Companies (Accounts) Rules, 2014. Accordingly, the Company has complied with the Accounting Standards as applicable to a Small and Medium Sized Company.

These financial statements have been prepared on a going concern basis. Management is of the view that the assets and liabilities have been recorded on the basis that the Company will be able to realise its assets and discharge its liabilities in the normal course of business.

Current/ Non-Current classification of assets and liabilities

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in Schedule III to the Companies Act, 2013. Based on the nature of services and the time between the acquisition of assets and their realization in cash and cash equivalents, the Company has ascertained its operating cycle as up to twelve months for the purpose of current – non current classification of assets and liabilities.

2.2 Use of Estimates

The preparation of financial statements requires the management to make estimates and assumptions that affect the reported amounts of assets & liabilities, the disclosure of contingent assets and liabilities on the date of the financial statements and reported amounts of revenues and expenses during the year reported. Actual results could differ from these estimates.

2.3 Fixed Assets

Fixed assets are stated at cost, less accumulated depreciation and impairment losses if any. Cost comprises the purchase price and any attributable cost of bringing the asset to its working condition for its intended use. Items of fixed asset held for disposal are stated at lower of the net book value and net realisable value and are shown under other current assets.

2.4 Depreciation

Depreciation on fixed assets is provided on the SLM over the remaining useful life of the assets estimated by the management. The management estimates the useful life for the different categories of fixed assets as follows:

Assets	Estimated Useful Life
Office Equipments	5 years
Furniture other than chairs	5 years
Chairs	3 years
Computers & Printer	3 years
Clinic Premises	25 Years
Servers and Networks	4 Years
Books	5 years
Air conditioner	5 years

Intangible Assets: The maximum permissible life allowed by AS 26 for intangibles is 10 years. The management has estimated the life of intangibles as 4 years.

2.5 Asset Fund

Fixed assets purchased out of grants received are charged off to the respective grants. These assets are capitalized and reflected under 'Additions' in the Fixed Asset register. An equal amount is transferred to the Asset Fund accounts for control purposes. Depreciation on fixed assets purchased out of grant funds is debited to the Asset Fund account. Accordingly, deletion of such fixed assets due to sale/disposal are also adjusted from the Asset Fund account.

2.6 Impairment

The carrying amounts of assets are reviewed at each balance sheet date to assess if there is any indication of impairment based on internal/external factors. An impairment loss is recognized wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the asset's net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to the present value at interest rate specific to the asset and in case where the specific rate is not available at the weighted average cost of capital which is adjusted for country risk/currency risk.

2.7 Investments

Investments that are readily realisable and intended to be held for not more than a year are classified as current investments. All other investments are classified as long-term investments. Current investments are carried at lower of cost and fair value determined on an individual investment basis. Long-term investments are carried at cost. However, provision for diminution in value is made to recognise a decline other than temporary in the value of the investments.

2.8 Revenue recognition policy

Restricted grant funds are recognised as income to the extent grant conditions are met and the amount is utilised during the financial year. Unutilised grant funds are reflected under "Current Liabilities" in the Balance Sheet as "Grants received in advance - restricted funds". Unrestricted grants and donations are recognised as income in the year of receipt. Grants with firm commitment but not received are recognised as receivable under Current Assets.

2.9 Retirement and other employee benefits

Retirement benefits in the form of Provident Fund, a defined contribution scheme, as well as Gratuity Fund contributions are charged to the Statement of Income and Expenditure of the year in which the contributions to the respective funds are due. There are no other obligations other than the contribution payable to the respective authorities.

2.10 Foreign Currency Transactions

Conversion

Foreign currency monetary items are reported using the closing rates as on March 31, 2024. Non monetary items which are carried in terms of historical costs denominated in a foreign currency are reported using the exchange rate at the date of transaction.

Exchange Difference

It was observed that foreign currency transactions have been accounted in accordance with AS-11 issued by the ICAI. Transactions arising in foreign currency during the year are converted at bank rates as per bank advice received during the year. In the absence of bank intimation, and for transactions outstanding as on the year end date, the bank rate prevailing on that date is taken.

The Company has been registered as a Not-For-Profit company under the provisions of the Companies Act, 2013. By virtue of the license granted to the Center by the Central Government of India under section 8 of the Act, the word "PRIVATE LIMITED" has not been used as a part of its name. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

Leases where the lessor effectively retains substantially all the risks and benefits of ownership of the leased term, are classified as operating leases.
